

QUICK CHARACTER CREATION

This guide uses the Edge of the Empire core rulebook only, and steps are outlined here in a different order than in the books.

STEP ONE: CONCEPT AND BACKGROUND (P 36)

Determine your character's concept, goals, personality and drive. These might have mechanical impacts later, but for now just get a feel for what sort of person your character will be.

Next, determine your character's background. Where are they from, and how did they get here? Choose from the following:

- **Down and out** – you're from a humble background. Luke Skywalker, Rey, Han Solo.
- **Middle class struggles** – modest but comfortable background. Ahsoka Tano, Poe Dameron.
- **The high and mighty** – you're wealthy and in high standing. Leia Organa, Padme Amidala.
- **The outsider** – you come from outside the galaxy's normal societal hierarchies. Clone troopers, Darth Maul, R2-D2.

Next, determine how you got here?

- **Opportunity knocks** – an opportunity was presented to you.
- **A higher calling** – you were drawn to serve a higher purpose.
- **Enemies and antagonists** – somebody wronged you the wrong way
- **Failure of character** – an inherent flaw in your character drove them in this direction.
- **Wrong place, wrong time** – pure dumb luck.

Consider whether your background is linked to another character's background.

STEP TWO: PERSONALITY AND MOTIVATION (P 94)

What motivates your character? Choose one (or two, if you prefer) from the following.

AMBITION

Friendship
Love
Freedom
Fame
Green
Status
Expertise
Wanderlust / Novelty
Power
Religion / Spirituality

CAUSE

Religion / Spirituality
The Weak / Charity
Non-human Rights
Local Politics
Overthrow the Empire
Crime
Emancipation
Droid Rights
Capitalism
Support the Empire

RELATIONSHIP

Place of Origin
Pet
Childhood Friend
Comrades
Sibling / Siblings
Mentor
Parents
Extended Family / Clan
Droid Companion
Former Nemesis

STEP THREE: OBLIGATION (P 38)

Something in your past follows you, and impedes your life in some way. You must expend time, money or resources into obliging this concept (or find a way to be free of it). Choose from the following:

- **Addiction** – you're addicted to something.
- **Betrayal** – you betrayed somebody, or they betrayed you.
- **Blackmail** – somebody is blackmailing you.
- **Bounty** – there's a price on your head.
- **Criminal** – you have a criminal record.
- **Debt** – you owe someone a great deal.
- **Dutybound** – you are compelled to fulfill a duty.
- **Family** – your family needs you.
- **Favor** – you owe somebody a favor.
- **Oath** – you made an oath that dictates your thoughts and actions.
- **Obsession** – you have an unhealthy obsession that impacts your life.
- **Responsibility** – you have a strong sense of accountability to a person, place or thing.

Take 10 starting obligation (a measure of the strength of your obligation). You can choose to take up to an additional 10 XP with any mixture of the following:

- **+ 5 starting XP** (+5 obligation)
- **+ 1,000 starting credits** (+5 obligation)
- **+ 10 starting XP** (+10 obligation)
- **+ 2,500 starting credits** (+ 10 obligation)

Consider whether your obligation works with another character's obligation.

STEP FOUR: SPECIES (P 43)

Choose from the following:

SPECIES	XP	BR	AG	INT	CU	WI	PR	WT	ST
Bothan	100	1	2	2	3	2	2	10+BR	11+WL
Droid	175	1	1	1	1	1	1	10+BR	10+WL
Gand	100	2	2	2	2	3	1	10+BR	10+WL
Human	110	2	2	2	2	2	2	10+BR	10+WL
Rodian	100	2	3	2	2	1	2	10+BR	10+WL
Trandoshan	100	3	1	2	2	2	2	12+BR	9+WL
Twilek	100	1	2	2	2	2	3	10+BR	11+WL

Species come with additional abilities as detailed in the core rulebook.

STEPS FIVE: CAREER AND SPECIALIZATION (P 53)

Human and droids are flexible and appropriate for most specialisations. They are therefore not listed below.

CAREER	SPECIALISATION	SPECIES	ROLE	DESCRIPTION
Bounty Hunter	Assassin	Rodian	Combat, aggressive	Rogue. The quintessential assassin.
	Gadgeteer	Gand, Trandoshan	Mechanical, combat	Tech. Technology-enhanced generalist
	Survivalist	Trandoshan	Animal control, explorer	Explorer. Adapting to harsh and wild conditions
Colonist	Doctor	Any	Medic, support	Support. Heals and boost allies
	Politico	Twilek	Politics, social	Diplomacy. Excels at social skills, the first face.
	Scholar	Any	Educator, knowledge	Intellectual. Excels at knowing things.
Explorer	Fringer	Any	Piloting, defensive	Generalist. Jack of all trades of both the skies and the streets
	Scout	Rodian, Bothan	Explorer, aggressive	Hunter. Tracking a target, surviving and adapting
	Trader	Twilek	Merchant, social	Negotiator. Haggle and convince others, the second face.
Hired Gun	Bodyguard	Wookiee, Trandoshan	Support, defensive	Tank. Protect your allies, take damage.
	Marauder	Trandoshan, Wookiee	Aggressive, combat	Melee. Fighter who excels at up close and personal.
	Mercenary	Twilek, Rodian	Combat, leader	Ranged. Commander of the battlefield keeping at range, and buffing your allies.

CAREER	SPECIALISATION	SPECIES	ROLE	DESCRIPTION
Smuggler	Pilot	Gand	Piloting, defensive	Aviator. All about flying, astrogation and piloting.
	Scoundrel	Bothan	Under cover, social	Han Solo. Charming and cool, the third face but adapted for the underground.
	Thief	Rodian	Under cover	Sneaky. A less damage focused and more stealth focused assassin.
Technician	Mechanic	Any	Mechanical	Fixer. Fixes your ships, your weapons, your armour.
	Outlaw tech	Any	Mechanical, criminal	Modder. The mechanic, but focused on mods, droids and scavenging.
	Slicer	Any	Computers, under cover	Hacker. Focused on computers, hacking, and blocking cyber threats.

Your career and specialisation will give you twelve 'career skills', which cost less to train and rank up. Of these twelve career skills, choose four from your career and two from your specialisation to gain one rank in (droids choose six and three respectively). You can choose a skill to rank up twice if it's both a career and a specialisation skill.

STEP SIX: SPEND EXPERIENCE (P 92)

You can spend starting XP (from your species or from additional obligation) in any of the four following things.

- **Improving characteristics.** Each additional rank costs 10 times the new rank. So improving brawn from 2 to 4 will cost 70 XP – 30 to take it from 2 to 3, and then 40 to take it from 3 to 4. You cannot go beyond rank 5 in character creation. This step can only be done at character creation, so should reflect the majority of experience spent.
- **Training skills.** Each rank costs 5 times the rank (plus an additional 5 for non-career skills), and like characteristics must be purchased sequentially. You cannot go beyond rank 2 in character creation.
- **Purchasing talents.** Your specialization will give you a talent tree. Talents can be purchased off that tree. You must move down the tree – a talent cannot be purchased until all previous talents are also purchased. The cost depends on the talent – those at the top cost less than those at the bottom.
- **Learning new specialisations.** A new specialisation can be purchased, which costs 10 times the number of total specialisations. So a second specialisation will cost 20 XP.

STEP SEVEN: GEAR (P 97)

You start the game with 500 credits, which can be increased by taking an additional Obligation at step three. You can spend these on any non-restricted item from Chapter V of the core rulebook. As an alternative to using your starting 500 credits, you can choose to select a premade loadout. You can still use any additional funds from an additional Obligation if you choose this loadout.

GENERIC ITEMS

Take all the following:

- **Comlink (handheld)**
- **Utility belt**
- **Backpack**
- **Heavy clothing**

WEAPON

Choose one of the following:

- **Slugthrower rifle**
- **Shock gloves**
- **Vibroknife**
- **Holdout blaster, with optional filed front sight attachment.**

SPECIALIST PACK

Choose one of the following packs:

- **Medic** – Emergency medpac, hand scanner
- **Explorer** – Climbing gear, fusion lantern
- **Mechanic** – Tool kit
- **Rogue** – Synthetic standard neurotoxin, Disguise kit, Chance cubes (x10), Sabbac deck
- **Tracker** – Scanner goggles, breath mask, binders
- **Grenadier** – Stun grenade (x2), Frag grenade (x1)
- **Slicer** – Slicer gear

Details of all the above items are found in Chapter V of the core rulebook.

STEP EIGHT: DERIVED ATTRIBUTES (P 94)

- **Wound threshold** – from your species (+ Brawn).
- **Strain threshold** – from your species (+ Willpower).
- **Defense** – generally from gear, but sometimes from talents.
- **Soak value** – equals Brawn, and increased by gear.
